Rauch Foundation - FY 2012 Direct Charitable Activities

Long Island Index

December 2011-November 2012

The Long Island Index is an annual compilation of indicators (measurements over time) of our economic, social and environmental well-being that report on how Long Island is faring as a region. These indicators identify and track community conditions and measure progress toward shared goals. Additionally a Special Analysis report was produced this year that focuses on the potential of the Long Island Rail Road to transform the regional economy.

Our annual survey of Long Islanders was conducted in the Fall of 2012 where we continued to gauge opinions about the regional economy, housing, affordability, taxes and the general mood regarding whether things were going in the right or wrong direction. The report was released in December, 2012.

Other major projects were undertaken in this fiscal year.

- (1) Our new website, <u>www.buildabetterburb.org</u>, launched in December 2011 grew tremendously in this fiscal year. We added new content, built our readership, added a social media component. Since the site launched, almost 15,000 unique readers have come to the site.
- (2) A complete redesign of our website, <u>www.longislandindex.org</u>, which makes it easier to find materials and allows you to visually inspect the data quickly.
- (3) Continuing our research on the fragmentation of governmental services, we launched maps detailing the catchment area for every major special district in Nassau and Suffolk counties including: police, fire, water, sanitation, education, library, ambulance and sewers.
- (4) We continued to publish a series of infographics in the Long Island Business News developed from the data collected by the Long Island Index. In November 2012, we changed the format from the larger infographic format to a simpler one entitled, By the Numbers, which we are publishing in several local papers as well as Long Island Business News.

The Long Island Index incorporates best practices from other successful indicator projects across the country. An Advisory Committee comprised of leaders from the business, labor, education, civic and nonprofit communities developed a framework of desired goals for the region. Working together with a Technical Committee with expertise in Long Island's demographics, economy, education, health and transportation, indicators were created to track the region's progress towards these goals.

The hypothesis of the *Long Island Index* is that "Good information presented in a neutral manner can help shape policy." This annual tool is used by business, labor, education, civic, nonprofit and government entities to inform their decisions about how to improve the quality of life for all Long Islanders. The *Long Island Index* also serves as a catalyst to improve regional outcomes by encouraging discussion and debate that lead to action.

Promoting Regional Growth and Development

Foundation representative participated as a member of the Ronkonkoma Hub Design Review Committee and the Stony Brook Station Improvement Committee to promote transit oriented development as a primary stimulus for regional growth. Initiated discussions with the Suffolk County Executive concerning a strategy for utilizing banked sewer credits to promote transit-oriented redevelopment in locations not served by public sewer systems.

The Foundation also supported the development of Accelerate Long Island, a regional economic development group focused on the economic growth potential of connecting Long Island's world-class research institutions and their work products with entrepreneurs and inventors to commercialize technology, foster the growth of a high-tech innovative economy, and create new jobs and businesses on Long Island. Modeled after successful programs in other regions of the country Accelerate Long Island will work with all relevant public and private sector stakeholders to create an entrepreneurial ecosystem where ideas are transformed into commercial success in industry clusters focusing on technology, clean energy and the life sciences.
